#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 31 July 2006.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) ☒ Claim(s) 1-15 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-15 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \*    c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.

### **DETAILED ACTION**

- Receipt is acknowledged of applicants': (a) amendment, which was filed on 31 July 2006; (b) form PTO/SB/122 (Change of Correspondence Address), which was filed on 30 August 2006; and (c) form PTO/SB/122 (Change of Correspondence Address), which was filed on 25 October 2006.
- The amendment filed on 31 July 2006 has been entered.
- The 35 U.S.C. 112(2) rejection of record is hereby withdrawn in light of the amendment.
- Claims 1-15 are rejected under 35 U.S.C. 112(1), 112(2), and 102(b).

### ***Response to Amendment***

The amendment filed on 25 October 2006 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. Examples of the added material which is not supported by the original disclosure are as follows:

- all reference to a stem applicator of approximately three to four inches;
- all reference to a stem applicator made of a liquid absorbing substance;
- all reference to a stem applicator made of a non-liquid absorbing substance;
- all reference to a stem applicator made of a combination of a liquid absorbing and/or non-liquid absorbing substance;
- all reference to a stem comprised of wood, or paper;
- all reference to a stem comprised of glass or plastic;

Art Unit: 1615

- all reference to a porous, alum-based styptic product
- all reference to an amount of approximately 900 mg;
- all reference to a styptic product in "bud" form;
- all reference to adhesion of styptic to applicator by means of pouring, dipping or molding for a period long enough to allow for drying and hardening of the styptic product to the applicator;
- all reference to a styptic product wherein the absorption of blood from a skin abrasion allows for removal and proper disposal; and
- all reference to reduction of reduction of the risk of blood to blood cross contamination amongst users.

Applicant is required to cancel the new matter in the reply to this Office Action.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention.

As amended, the instant claim set recites the following limitations:

Art Unit: 1615

- “approximately three to four inches” (claims 1 and 3);
- “a liquid absorbing substance” (claims 1 and 4);
- “a non-liquid absorbing substance” (claims 1 and 5);
- “a combination of a liquid absorbing and/or non-liquid absorbing substances (claim 6);
- a stem comprised of wood, paper, glass, or plastic (claims 1, 7, and 8);
- a stem comprised of a combination of wood, paper, glass, or plastic (claim 9);
- “porous”, and absorption of blood (claims 1 and 10);
- “alum-based” and 900 mg of styptic product (claims 1 and 11);
- a “bud” form applicator (claims 1 and 12);
- “pouring, dipping, molding”; “for a period long enough to allow for drying and hardening of the styptic product to an applicator” (claims 1 and 13);
- a styptic product wherein the absorption of blood from a skin abrasion allows for removal and proper disposal (claims 1 and 14); and
- “blood to blood cross contamination” (claims 1 and 15).

After carefully examining the instant disclosure, the examiner respectfully submits that support for these amendments is lacking and the addition of said limitations is new matter. Specifically, the above limitations are not set forth in the original specification.

\* \* \* \* \*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1615

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, the following language is vague and does not define the metes and bounds of the claims: "or other like material," "amount sufficient enough," "or like contact action." Clarification is requested.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Al Ani (U.S. Patent No. 3,948,265).

Al Ani discloses a styptic applicator (see abstract). Active substance may be applied to one or both ends of the applicator (see col. 2, lines 60-68). The disclosed applicator can be disposable (see col. 4, lines 3-7).

### ***Conclusion***

Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

An examination of this application reveals that Applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450.
